Just realized I hadn't cleaned up all the track changes – please see attached version.

Subject: QAPP - DE WIIN Grant

Ruby and George—

Not sure if you remember me from working with ODW and DPH, but I have moved to a new agency and I'm working with DOE. I'm working on getting caught up on a number of issues, including the WIIN grant for sampling drinking water in schools for lead. Attached is the updated QAPP and appendices for review. Please let me know if there are any questions or further revisions needed.

Thanks

Jamie
